

CARDBOARD
SHREDDERS

HSM Cardboard Shredders
***Cardboard recycling for despatching
and warehouse areas***

HSM®

The state of the art cardboard shredders

HSM ProfiPack 400 and 425 are the optimum solution for all despatching and warehouse areas. They instantly convert bulky used cardboard containers of goods delivered into an all-purpose and first of all free packaging material.

Our cardboard shredders distinguish themselves by:

- Cutting and perforation in one cycle meaning time-consuming pre-cutting of cardboard no longer required*
- The hardened cutting rollers, made from a single piece of metal, are completely resistant to damage from paper clips and other soft metal items*
- The special geometry of the cutting rollers guarantees even, optimum padding of the material*
- Specially hardened perforating rollers and sturdy bearing plates guarantee reliable padding without bending, twisting or catching in the cutting unit - thus extending service life and saving subsequent costs*
- The sturdy housing made of sheet steel has been specially designed for the rigours of use at the despatching area*
- The practical measuring scale allows you to quickly measure the width of material you require*
- A generously proportioned supporting table ensures comfortable and simple operation*
- Naturally, the shredders meet all national and international safety standards*
- Last but not least - our two high-tech ProfiPack machines offer excellent price-/performance ratio*

**HSM ProfiPack 400 –
The all-in-one tabletop machine**

- Our powerful tabletop machine is portable and flexible in use and especially space-saving thanks to its compact size
- Thermal fuse protects the motor from overheating
- AC power connection
- ON / OFF and REVERSE rocker switch for easy operation

**HSM ProfiPack 425 –
So powerful yet so mobile**

- Our multi-functional standing machine has rollers for mobile operation
- If you want, you can keep the air clean by connecting it to a dust extractor system
- Its large motor provides high throughput speeds and power reserves - which means it has no problems handling multiple layers
- Thermal fuses on all three phases protect the motor from overheating
- 3-phase power connection
- Rotary switch with the positions ON/OFF and REVERSE for comfortable and easy handling

Model	HSM ProfiPack 400	HSM ProfiPack 425
Working width in mm	415	425
Infeed height in mm	10	20
Cutting capacity	1 layer	2-3 layer
Cutting speed in m/min	8	12
Motor in kW	1.15	4.0
Voltage / Frequency	230 V / 50 Hz	3 x 400 V / 50 Hz
Dimensions W x D x H in mm	590 x 370 x 360	700 x 480 x 970
Weight in kg	approx. 37.2	approx. 175

All technical data and dimensions are approximate values. Technical and design modifications reserved.

From waste to packaging material:

Cutting and perforation in one cycle. The end result is self-produced, high-quality packaging material.

Perforation and padding follow in exactly dimensioned intervals.

Specially hardened HSM cutting rollers ensure absolutely precise cutting

The Result: High quality packaging material for goods you send

The special groove form of the cutting and perforation rollers ensures particularly effective padding
